

DP WORLD

# TRADE WITH CONFIDENCE: DP WORLD FREIGHT FORWARDING

# INTRODUCING A DP WORLD OF FREIGHT FORWARDING

With flexibility, transparency and on-ground expertise anywhere you need it, DP World Freight Forwarding is the better way to get your goods factor floor to customer door – across 189 countries. Built on our comprehensive network of ports, terminals, marine services and our deep logistics experience, DP World Freight Forwarding is accelerating trade to help you grow your business.

## FREIGHT FORWARDING YOU CAN TRUST

DP World Freight Forwarding seamlessly integrates a global network of ports, terminals, marine services and market access infrastructure with our multimodal logistics expertise.

With a dynamic and transparent pricing model, DP World Freight Forwarding also brings value-added services to every unique customer need.

Tailor-made logistics solutions combine with on-ground market expertise and predictive analytics so you can stay ahead of the game, anticipate trends and make informed decisions. Then add in live Track & Trace built on DP World's CARGOES Flow platform across our terminals, as well as air and ocean carriers. The result: you've got freight forwarding you can trust.

## CHANGING WHAT'S POSSIBLE WITH DP WORLD

Our Freight Forwarding offering combines expert logistics and local insights across our global network with state-of-the-art digital solutions. This delivers a service that empowers your business with trust and assurance. Our end-to-end service expedites the flow of your goods, drawing from decades of experience and investments in both established and emerging markets, creating fresh global opportunities for your business.

Offering transparent pricing, complete cargo visibility and customised flexibility, DP World Freight Forwarding simplifies your path to trade.

In today's ever-changing trade landscape, you require a freight forwarding partner that instils confidence in the journey of your goods.

DP World's Freight Forwarding offering combines expert logistics and local insights across our global network with state-of-the-art digital solutions. This delivers a service that empowers your business with trust and assurance.

# OUR END-TO-END SOLUTIONS

With DP World Freight Forwarding, experience seamless logistics, global connectivity and advanced digital tools to elevate your supply chain.

## 1 Origin and Order Management:

At DP World Freight Forwarding, we take care of everything from the point of origin. This includes trucking, vendor logistics, purchase order management and warehousing including at DP World freezones.

## 2 Port Handling and Freight Management:

**Sea:** Whether it's full or less than container load movements, our Freight Management Services efficiently navigate your cargo from its origin to your desired destination.

**Air:** When time is of the essence, our air freight facilities ensure your cargo gets to its destination quickly.

**Customs expertise:** We provide import and export customs clearance, product classification, duty draw back, trade compliance and offer bonded warehousing and Free Trade Zone accommodation to streamline your operations.

## 3 At destination:

We've got your destination covered with our drayage, destination logistics, last-mile delivery, deconsolidation and bonded warehousing services.

## 4 All integrated into a Single Digital Platform:

Our proprietary CARGOES Flow platform offers full visibility, capturing client specifics and requirements.

## 5 DP World Freight Forwarding value add:

**Buyer/seller console:** Simplify your interactions with a convenient digital platform.

**Transload and advanced hub:** Efficiently manage cargo transfers and hub operations.

**Delay in transit:** Plan for and mitigate delays effectively.

**Cars in containers:** Specialised solutions for automotive shipments.

**Alternative economic routing:** Explore cost-effective routing options, including rail from China and air charters.

**Commodities specific:** Tailored solutions for pharmaceuticals, commodities like wood and metals and chemicals.

**Advanced visibility:** Gain insights into purchase orders, vendor management, and SKUs, empowering informed decision-making.

# THE DP WORLD ADVANTAGE

At DP World Freight Forwarding, our unwavering commitment to operational excellence and customer partnerships enables us to easily handle any challenges that arise. Our global freight forwarding network spans the globe, providing the local insights, flexibility, cutting-edge technology, analytical prowess and expert knowledge needed to meet your distinctive cargo demands. Whether navigating shifting trade dynamics or staying competitive with pricing, we keep you ahead of the curve.

# MORE THAN FREIGHT FORWARDING

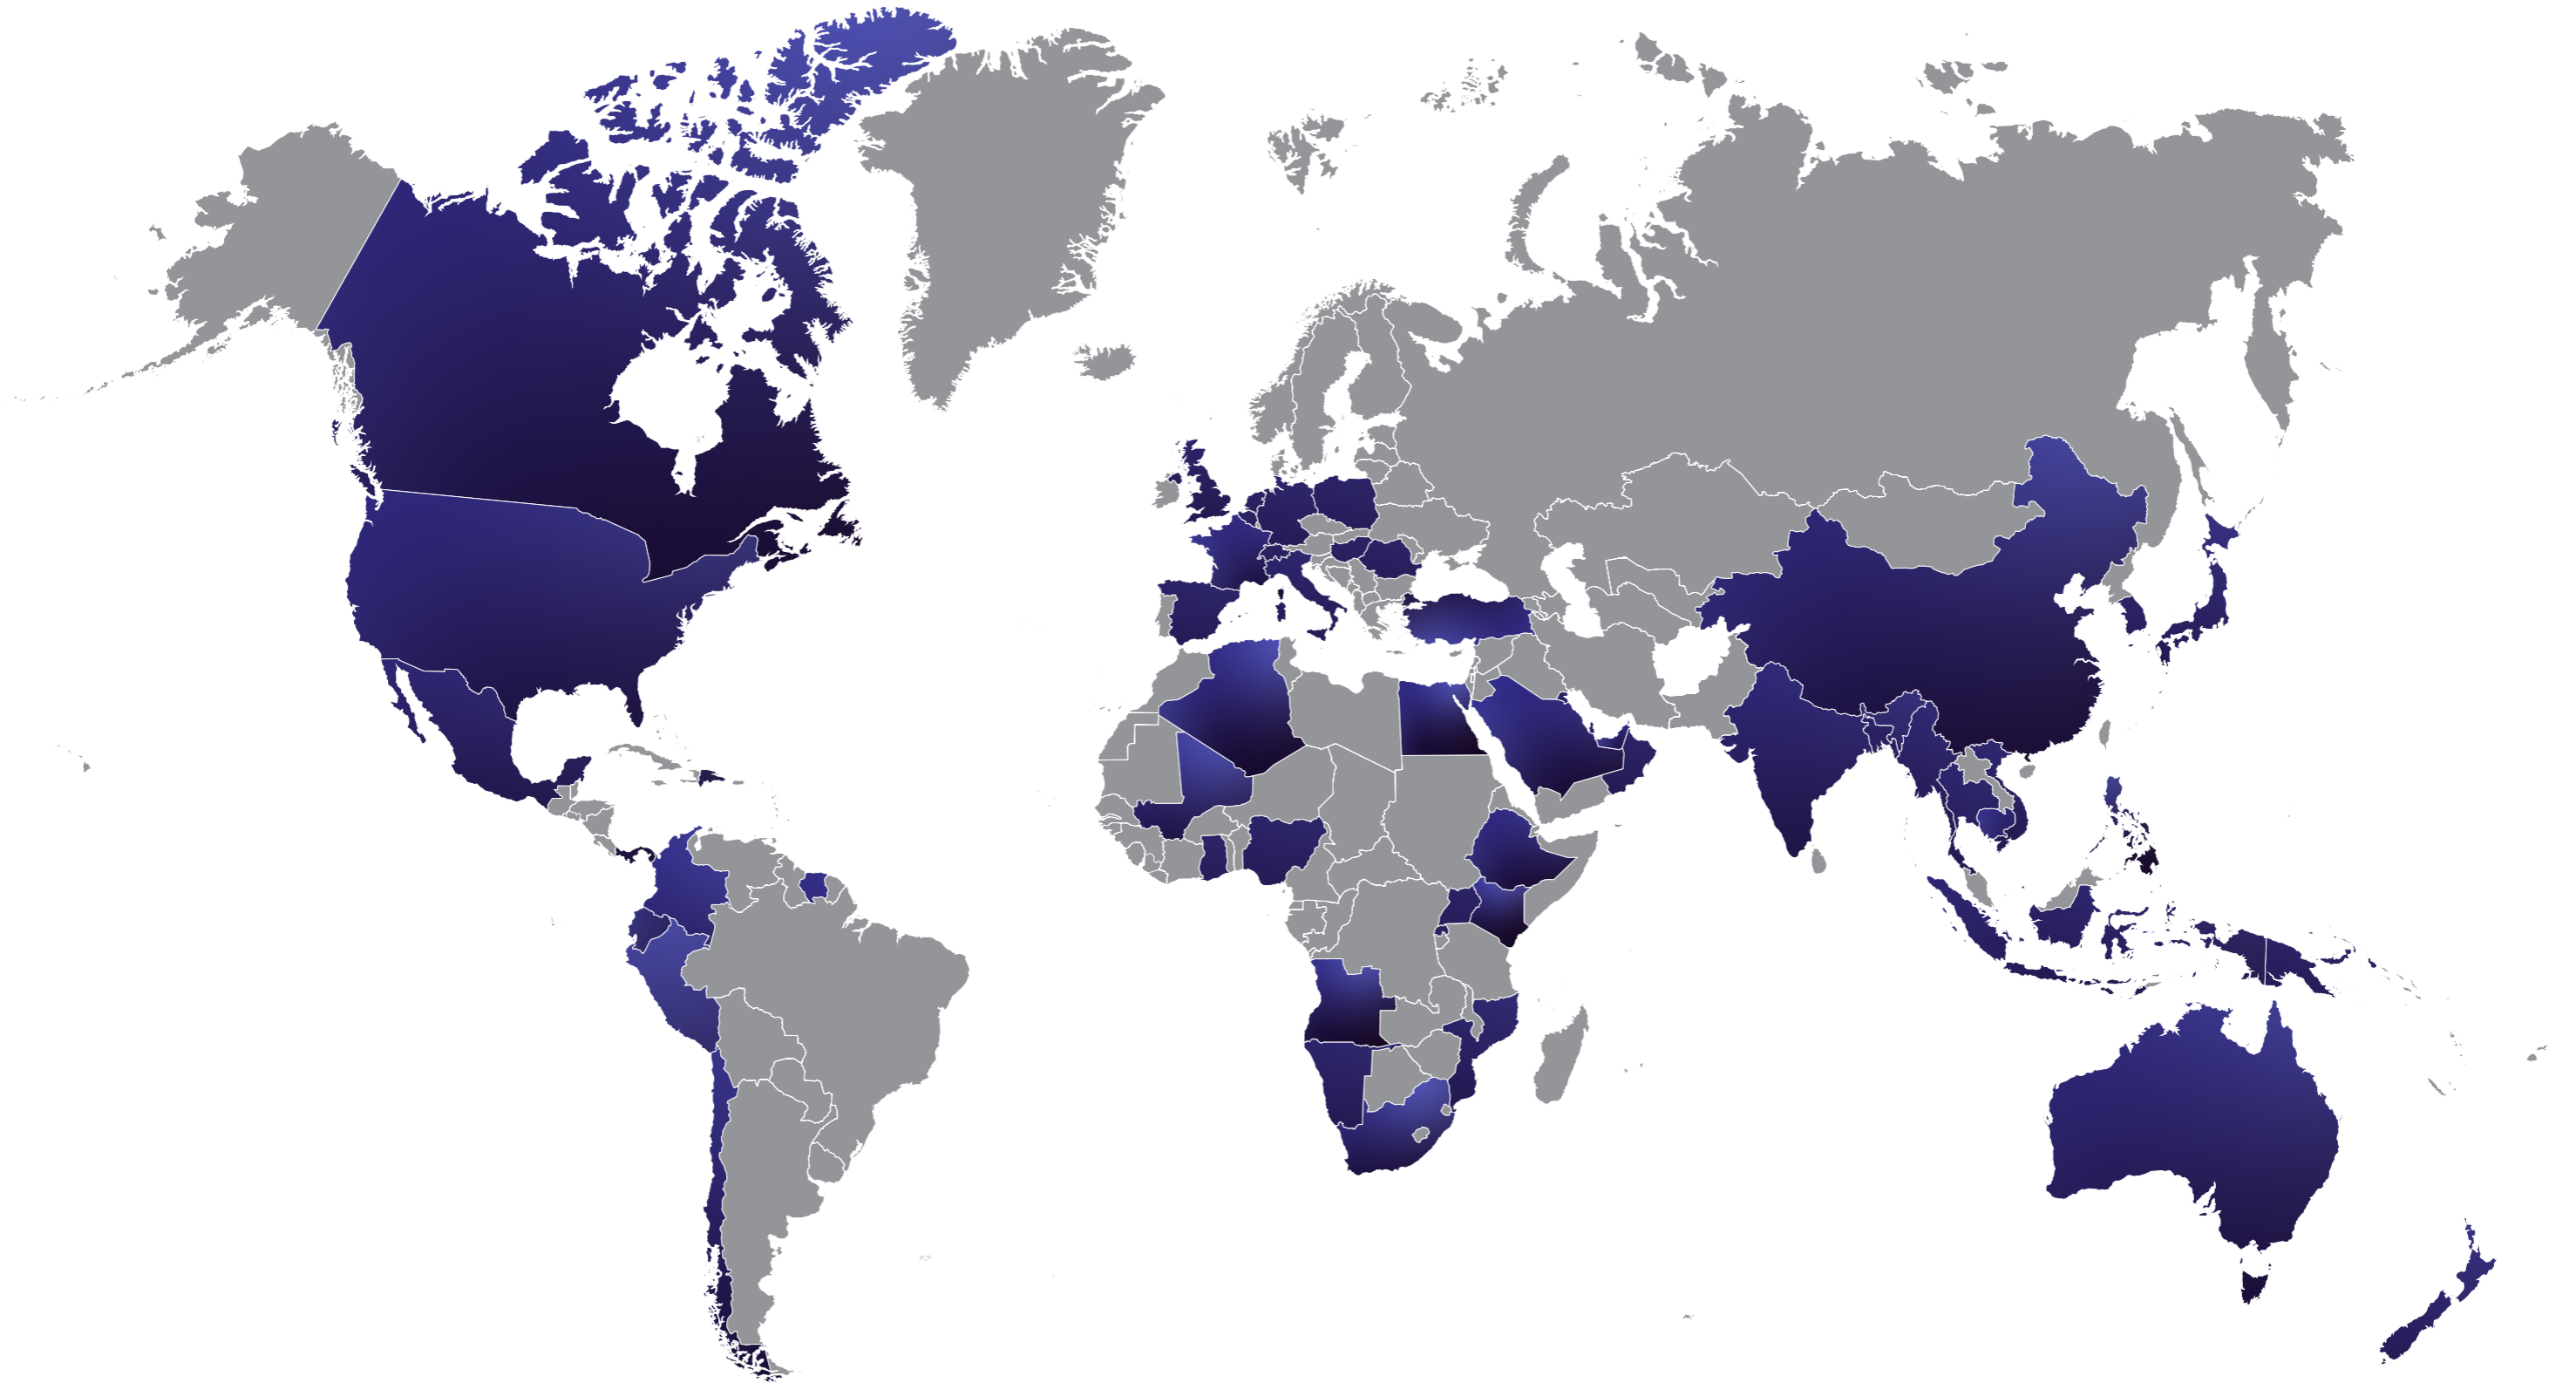

Leverage DP World's global network of ports and terminals on every continent, our end-to-end logistics solutions for streamlined cargo flow, and maritime and feeder services for extended reach. Our expanding Economic Freezones and continent-spanning market access expertise unlock growth possibilities. We don't just transport goods; we open doors to opportunities.

# DP WORLD FREIGHT FORWARDING: THE SUSTAINABLE WAY

Wherever your cargo goes, we're working towards making sure it gets there in a sustainable way. We have already committed to becoming a carbon neutral enterprise by 2040 and net zero carbon enterprise by 2050. We are part of the Clean Cargo Working Group, which is dedicated to improving environmental performance in container shipping and we have certification in biofuels to compensate for our current CO2 emissions.
