# WE MAKE TRADE FLOW TO CHANGE WHAT'S POSSIBLE FOR EVERYONE

## DP WORLD BERBERA – SOMALILAND

DP World Berbera is already maximising the opportunities that the port offers, not only for the country, but the wider Horn of Africa region and the environment. DP World is working to create a sustainable, purposeful business through improved infrastructure, job creation, and a focus on Somaliland's development.

Our terminal at the Port of Berbera – the only prominent multipurpose port in Somaliland – is an integrated maritime, logistics, and industrial

hub in the Horn of Africa, contributing directly to Somaliland's economy and the economies of neighbouring countries.

In partnership with the government of Somaliland, we will continue to shape the Port of Berbera into an integrated trade hub, with an emphasis on making transportation to and from the hinterlands easy, efficient, and affordable – whilst connecting this fruitful region to global trade ecosystems.

## WHAT WE DO IN SOMALILAND

### ENHANCING INFRASTRUCTURAL CONNECTIVITY FOR SOMALILAND

Enhanced localised infrastructure and multi-modal operations are already strengthening Africa's economic growth. This integrated maritime, logistics and industrial hub will serve the Horn of Africa, a dynamic region with a population of more than 140 million people.

### GOVERNMENT PARTNERSHIP

As part of the Somaliland National Vision 2030 plan, DP World is supporting the government's goal to create a vibrant free-market economy that brings about rapid growth and higher living standards. Trade, powered by a strong spirit of entrepreneurship within the private sector, will play a key role in the realisation of Vision 2030.

### SUPPORTING SOMALILAND'S FUTURE

For Somaliland, the growing trade ecosystem in Berbera is a cornerstone of the economy and by 2035 is expected to facilitate trade equivalent to nearly 27% of GDP and 75% of total trade, indirectly supporting 53,000 jobs in the country. DP World have also partnered with the Berbera Electric Company (BEC) to power the port through solar energy.

**\$1 MILLION**

Investment to install new water wells and upgrade water infrastructure in Berbera.

**450%**

Increased vessel productivity at the port since DP World's work began in 2017.

**1,200**

Employees and the largest employer in Somaliland after the government.

**600%**

Increase in government earnings in the first month of port privatisation.

**500,000**

TEU capacity annually.

Container volume increased by **30%** and general cargo by **90%**
