

SEAMLESS SOLUTIONS FOR GENERIC PHARMACEUTICALS WITH DP WORLD

Offering end-to-end logistics solutions that are designed for evolving needs of generics pharmaceuticals.

With generics producers facing increased costs pressures balanced with the need to preserve product integrity for the entire journey from end to end, world-class logistics are critical for bringing generics pharmaceuticals to market. Our vast multimodal network, tailored for generic pharmaceuticals, safely delivers vital healthcare to patients worldwide. Spanning 80+ ports and terminals, 180 Freight Forwarding stations and 40 GDP-certified storage sites, we provide unmatched reach and flexibility. From cold chain logistics to seamless end-to-end transport, we expertly navigate complex markets to provide lifesaving medicines reliably and responsibly.

TRANSFORMING AFRICAN HIV OUTCOMES

To help a leading generic pharmaceuticals company support a major aid agency's GHSC-PSM project in Africa, we:

- Modernised distribution and generated cost benefits through bonded warehousing
- Delivered medicines and healthcare products faster and more cost-effectively for our customer and its patients
- Eased consolidation of products with similar packaging for smaller markets.

Our work successfully delivered HIV aid products to 14 African countries, helping each nation reach its 90-90-90 HIV testing, treatment, and viral load suppression targets.

HEALTHCARE FOR PEOPLE AND OUR PLANET:

To help the pharmaceutical sector save lives sustainably, we have revised our decarbonisation target to achieve more ambitious reductions in our Scope 1 and 2 emissions by 2030. We have already reduced our emissions in 2023 by 13% against our 2022 baseline.

SERVICES INCLUDE:

- Network of GxP-compliant warehousing and value-added services
- Temperature controlled transportation
- Multimodal transportation on own DP World-operated Ferry, Barge, Road and Rail modality
- Nearshoring opportunities through 11 existing Parks and Economic Zones
- End-to-End monitoring and visibility
