Empty Depot Services

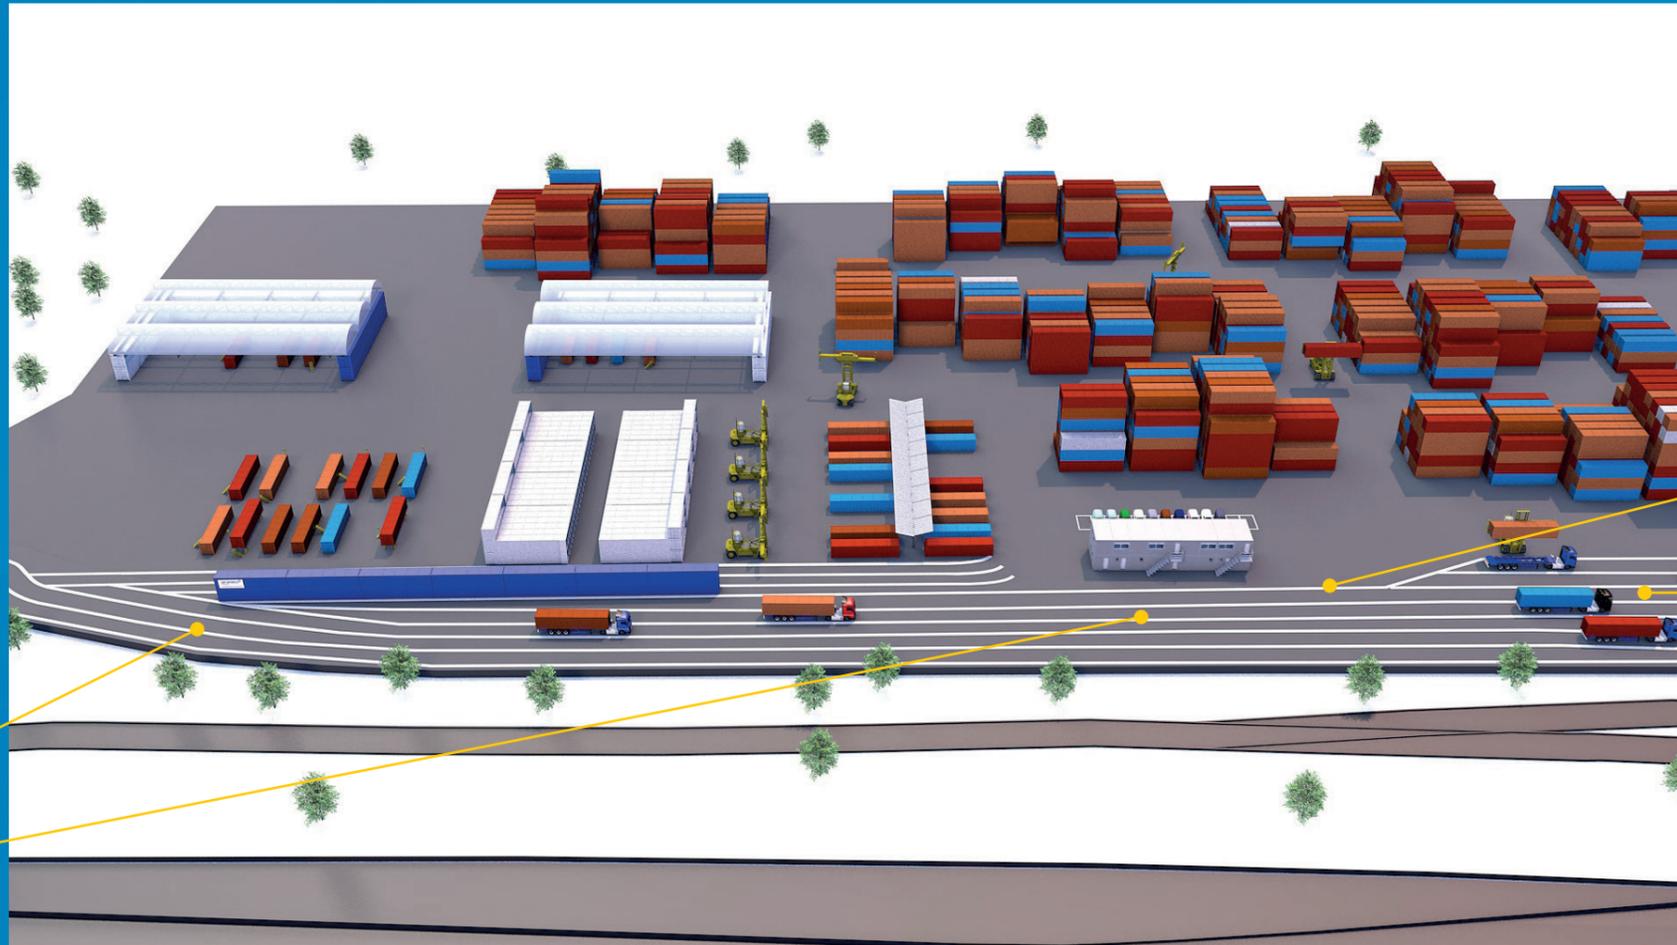

From 31 May 2021 it is mandatory to make a TAS appointment via E-World 1700

MANUAL FOR TRUCK DRIVERS

Welcome to DP World Antwerp Empty Depot Services. In this leaflet we explain step by step how truck handling works at the terminal. From 31 May 2021, a timely and correct pre-registration is mandatory.

Empty Depot Services

01 Log in to www.eworld1700.be to make a TAS appointment in a free slot.

02 Please make your way to the EDS entrance within the requested time slot.
Full chassis: Line 1, 2 and 3
Empty chassis: Line 4 and 5

- 03**
- Park your truck and open your container doors.
 - After our employee examined the container, you can walk to the Self-Service Desk via the walking paths and log in with your Alfapass.
 - Enter your TAS code and receive a ticket.
 - Walk back to your truck and go to the operational zone.

04 Hold your Alfapass in front of the scanner and drive to the pick-up and drop-off area.

05 Turn off your lights, stay in your truck and wait for the forklift driver to signal to drive forward.

06 When all operations are completed and you have a container(s) on your chassis, go park yourself on the twist lock zone. There you check the container(s) and lock the twist locks.

07 Go towards 'Exit'. Hold your Alfapass in front of the scanner, confirm all transactions and leave the depot.
