

DP World Limassol Health, Safety and Environment Policy

DP World Limassol recognises that Health, Safety, and Environmental Management is fundamental to our successful performance as a business.

As an organisation and individuals, it is our policy and commitment to:

1. Manage our business pursuing the goal of no harm to people involved directly or indirectly to our activities, and protecting the environment where we operate, as well as our assets.
2. Support any person who requests that work should stop if that person objectively assesses the work to be a threat to personnel safety or the environment or they believe themselves to be in circumstances of imminent danger.
3. Manage our business and associated risks in compliance with national and international legislation and regulations and strive to exceed the best applicable industry standards.
4. Consult and work with authorities, third parties and all stakeholders to develop, adopt and share best practices that continually improve Health and Safety and the protection of the Environment.
5. Implement processes, to provide the necessary resources, to assure that all personnel are competent and able to undertake their respective functions in a safe manner and without endangering others.
6. Promote, and lead by example, a sustainable and effective Health, Safety and Environmental culture in which all employees and services providers take personal responsibility for the prevention of risks of accident, harm to health and environmental damage.
7. Continually develop, implement and review systems that facilitate the systematic identification and assessment of all Health, Safety and Environmental risks in all our activities and apply suitable controls to manage them too As Low as Reasonably Practicable.
8. Measure, audit, and communicate with agents, authorities, and the rest of the stakeholders of our Health, Safety and Environmental performance.
9. Develop and implement procedures to respond quickly and effectively in the event of unplanned and undesirable events and test such procedures regularly.
10. Continually improve our Health, Safety and Environmental management to deliver or exceed the highest industry leading performances.
11. Select contractors, suppliers and business partners taking into consideration their ability to meet or exceed our Health, Safety and Environmental commitments.

Simon Pitout
