terms and conditions**

Berthing Policy

DPWL Multipurpose Berthing Principles.

- I. DPWL berthing policy is based on vessel Estimated Time of Arrival (ETA) and Notice of Readiness (NOR) declaration.
- II. Cargo Vessels declared to DPWL with expected ETA will be allocated berth and resources subject to availability on first come first-serve basis.
- III. Cargo Vessels with schedule regular weekly calls on long term periods can pre-agree on accepted berthing window and be allocated appropriate berth and resources on a weekly basis (subject to DPWL agreement).
- IV. When more than one General Cargo vessel arrive at the same time, vessel arriving and tendering NOR first will be allocated first available berth and resources. Second General Cargo vessel will be allocated berth and resources on the next possible availability.

CRUISE BERTH ALLOCATION PRINCIPLES

1. All vessel berth requests for current and next years will be provisionally confirmed.
2. Terminal Operator will allocate Dedicated Cruise berth based on principles stated below (Cruise Berth Allocation Priority Order)
3. In case of lack of space / berth, Terminal Operator will provide alternative dates to which Cruise line or representative to laisse for alternative dates to be fixed.
4. Reconfirmation of the berth call required at least 6 months prior Actual Date of the call.

Cruise Berth allocation in priority order

5. Home port vessels will be prioritized for the cruise berth over Transit calls. Home port vessels must have minimum of 200 embarking passengers to be considered as home port.
6. Booking order – First Come first serve will prioritize for the cruise berth
7. Highest Number of Home port passengers between two Home port vessels or two transit vessels will prioritize for the cruise berth
8. Overnight stay will prioritize for the cruise berth when two similar cruise vessels are in port same day
9. Highest Number of Passengers on board or Vessel LOA (subject to allocation of available berths) will prioritize for the cruise berth

V. Turnaround call (Home port)

- When two (2) cruise vessels declare the same day for turnaround call priority for the dedicated quay (east Quay) is provided to the vessel with the highest number of passengers. Second turnaround cruise vessel will be allocated another berth and internal transportation will be provided as per DPWL public terms, conditions, and tariffs.

VI. Transit calls – First Come, First Serve

- A Cruise vessel is allocated the berth directly next to the Cruise terminal (East quay) when Notification is received from Cruise line or appointed agent for the vessels call including ETA and expected duration of stay on a first come first serve basis.
- If the Cruise dedicated quay (East quay) has been allocated to another cruise vessel a different quay will be allocated and internal transportation will be provided as per DPWL public terms, conditions and tariffs.
- If a Turnaround call is declared after east quay has been allocated to a transit vessel, DPWL will reallocate berthing and inform Cruise line and appointed agent at least 48 hrs prior arrival of transit call.
- Cancellation of call for Cruise vessels carries no penalties in less than 15 days from the actual confirmed date of arrival carries a penalty fee as per DP World Limassol Public Tariff item.

** DPWL, upon receiving cruise vessel declaration for calling Limassol Cruise terminal will allocate berth basis the above principles and confirm such within 2 business days from the time notification is received.*

1. Break-Bulk

1.1. Break Bulk Loading / Discharge

Item	Description	Rate €		
		1. Loading	2. Discharging	3. IMDG
1.1.1	General cargo Direct Delivery (per tonne and pro rata for part thereof)	€ 7.477	€ 7.477	+50%
	Stevedore Charges

7. Cruise

DP World Limassol – Cruise Berthing Policy

POLICY BRIEF AND PURPOSE

Policy is set to provide guidance for the berthing allocation of Cruise vessels acknowledging that Cruise vessel schedule is declared up to two (2) years in advance.

SCOPE

To provide guidance on berth allocation of cruise vessels, as well as clarity to the tariff structure relating to cruise vessels. DP World will serve more than 2 cruise vessels in one day taking into consideration cruise vessel LOA, Passenger capacity in accordance with port and terminal capacity and the following parameters.

- Guest experience that can be provided. DP World Limassol is committed to deliver a world-class experience to its customers. By enforcing this policy long waiting lines are avoided while availability and quality of transportation as all guests will be disembarking / embarking on/about the same time are ensured, among others.
- Safety of the Cruise passengers which can be accommodated through the terminal and still be provided with a guest experience that will highlight Cyprus hospitality.
- The smooth and safe operation of other parts of the port that require the berthing of ships at DP World Limassol terminals and contribute in covering the commercial needs of Cyprus' citizens and economy

BERTH ALLOCATION PRINCIPLES

1. All vessel berth requests for current and next years will be provisionally confirmed.
2. Terminal Operator will allocate Dedicated Cruise berth based on principles stated below (Cruise Berth Allocation Priority Order)
3. In case of lack of space / berth, Terminal Operator will provide alternative dates to which Cruise line or representative to liaise for alternative dates to be fixed.
4. Reconfirmation of the berth call required at least 6 months prior Actual Date of the call.

Cruise Berth allocation in priority order

I. Turnaround call (Home port)

- When two (2) cruise vessels declare the same day for turnaround call priority for the dedicated quay (east Quay) is provided to the vessel with the highest number of passengers. Second turnaround cruise vessel will be allocated another berth and internal transportation will be provided as per DPWL public terms, conditions and tariffs. Home port vessels must have minimum of 200 embarking passengers to be considered as home port.

II. Transit calls – First Come, First Serve

- A Cruise vessel is allocated the berth directly next to the Cruise terminal (East quay) when Notification is received from Cruise line or appointed agent for the vessels call including ETA and expected duration of stay on a first come first serve basis.
- If the Cruise dedicated quay (East quay) has been allocated to another cruise vessel a different quay will be allocated and internal transportation will be provided as per DPWL public terms, conditions and tariffs.
- If a Turnaround call is declared after east quay has been allocated to a transit vessel, DPWL will reallocate berthing and inform Cruise line and appointed agent at least 48 hrs prior arrival of transit call.
- Cancellation of call for Cruise vessels carries no penalties in less than 15 days from the actual confirmed date of arrival carries a penalty fee as per DP World Limassol Public Tariff item.

* DPWL, upon receiving cruise vessel declaration for calling Limassol Cruise terminal will allocate berth basis the above principles and confirm such within 2 business days from the time notification is received.

7.1. Cruise Tariffs 2023- 2024

	Type	Charge unit	Rate in €
7.1	Cruise Transit Calls		
7.1.1	Same Day Call (12 hrs port stay)	Per passenger	€ 7.477
