Subject: Change of COD to CDD

Dear Customer,

We would like to inform you that, as of 15<sup>th</sup> February, there will be a change in our invoicing system related to the start of the storage count. From that date, the system will consider the CDD (Container Discharge Date) instead of the COD (Complete Of Discharge).

With this change, the system will allow our customers to pick up their containers as soon as they are unloaded from the ship, avoiding the need to wait until they are completely unloaded, as was previously the case.

This change aims to make the process of removing import containers from the terminal more flexible and efficient.

We would also like to inform you that, with this change, invoices will no longer mention the COD date, but the CDD date.

If you have any questions or require further information, please don't hesitate to contact us on the following numbers:
