

DP WORLD

Maputo, 15 June 2022

Dear Suppliers,

Subject: Single Use Plastic Elimination Policy (zero plastic packing)

DP World Maputo would like to inform you that we have implemented a Single - Use Plastic Elimination Policy inside our Premises. Therefore, we request all our Suppliers/Contractors to comply with this policy and join us in this program to protect our Environment.

Single-Use Plastic also known as disposable plastics are goods that are made primarily from fossil fuel-based chemicals (petrochemicals) and include items intended to be used only once before they are thrown away or recycled and are meant to be disposed of right after use often, in mere minutes. Single-use plastics are most used for packaging and service ware, such as "water" bottles, wrappers, straws, coffee cups, takeaway plates + related cutlery and carrier bags.

The suppliers or their partners / subcontractors shall ensure:

- a. No product shall be packed in plastic,
- b. No plastic bags in the terminal,
- c. No food in disposable plates / containers, including the related cutlery.
- d. No single use water bottles,
- e. No straws,
- f. Supplier must be able to package if necessary, using eco-friendly packages.

Consequently, DP World Maputo invites all our partners/ Suppliers/Contractors to be in compliance with this policy and participate to the protection of our Environment and reserves the right to ban and blacklist any supplier violating the Single Used Plastic Elimination Policy.

If you have any questions please do not hesitate to reach out to us so we can ensure swift compliance by all parties.
