MARINE SERVICES

P&O MARITIME LOGISTICS

Delivering comprehensive global solutions for the whole maritime industry

P&O, a DP World company as a leading provider for marine services and end-to-end logistics solutions in the Maritime industry.

We're proud to offer world-class integrated logistics solutions, but we never forget where we started: at sea. We are a leading provider of maritime solutions to governments and organizations around the world, and we're actively working to develop universal marine standards.

We operate at scale. We complete over 300 projects a year at our drydocks in Dubai, home to some of the world's biggest-ever new-build offshore fabrication programmes. Our new ship-lift facility is capable of lifting two vessels of up to 2,500 tonnes. And our shipping services allow you to reach customers at ports across the Middle East, Asia and Africa.

P&O is expanding its services to the Suriname-Guyana Basin. Convenience is then just one step away. From our Shore Base Suzannasdaal we will offer marine, logistics and technology driven solutions which will optimize our operational excellence.

SAFETY & ENVIRONMENT

We have a Safety and Environment Department, supported by regional and global safety teams. Our policies and guidelines are implemented to achieve the safest and most efficient methods of operation. Our policies and guidelines meet or exceed national health and safety legislation.

We have zero tolerance of conditions and behaviors that contribute to workplace incidents. To help us improve our processes and move towards our goal of zero harm, we regularly audit compliance with our policies and guidelines.

Emergency response, spill management and Dangerous Goods Policies are in place to respond effectively to hazards affecting people and environment.

WE ARE A RESPONSIBLE BUSINESS

PROTECTING OUR PEOPLE AND PLANET - TODAY AND TOMORROW

DP World's 'Our World, Our Future' sustainability strategy helps us to work in a responsible way that prioritizes sustainability and impact on the people, communities and environment in which we operate.

We do this by using new technologies to make our operations more sustainable. In doing so, we cut energy and resource use, and create a fairer and more connected planet. The 'Our World, Our Future' strategy is designed to deliver responsible operations. At the same time, it prepares us for a radical shift in how business in general and logistics in particular, respond to the great challenges of climate change, education and social inequality.
