# Operational Status and Measures

## Full containers yard - Operational status:

- **Yard utilization rate: 95,62%**  
(Terminal capacity utilization, calculated as the number of existing TEUs in the terminal compared to the maximum operational storage capacity of the terminal)
- **Average age of the full containers: 35,42**  
(The average length of stay expressed in days of containers that are in the terminal at the time of calculation)
- **Average dwell time: 14,23**  
(The average length of stay expressed in days of containers leaving the terminal in the last week)

## Operational measures & windows for full containers:

- Providing storage space is available in container yard, export containers will enter the terminal:
  - 15 days before vessel ETA for containers arriving by rail.
  - 7 days before vessel ETA for containers arriving by truck.
- Import containers:
  - Will be discharged from vessels providing storage space available in container yard.
  - Imports must be delivered within 7 days from the day of entrance.
- Vessels accepted for operations in our terminal must have balanced number of import full & export full containers. As of today, 10<sup>th</sup> June, we no longer accept more full imports than full exports to be discharged off the vessel.
- Berthing of vessels will be scheduled in such a way as to urgently reduce yard utilization at the sole discretion of the Operator.
- All measures mentioned above will remain in full force until yard utilization will drop back below 80%
