

DP World
Sokhna
The definitive guide

DP World Sokhna

DP World Sokhna sits south of the Suez Canal on the Red Sea, strategically located to handle cargo transiting through one of the world's busiest commercial waterways – from Asia to the Middle East and beyond, to Europe.

Linked by a modern six-lane highway and extensive rail links, DP World Sokhna is the closest port to the capital, Cairo. A high percentage of cargo from the East destined for Egypt is imported via Sokhna. It also serves as a transit port for other Egyptian ports as well as into the African subcontinent.

- Developed parking plaza with capacity for 250 trucks
- 24-hour customer service helpline

**Rail facility with
direct daily
service to 6th of
October and
10th of Ramadan**

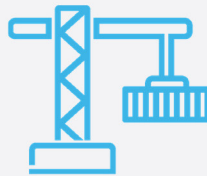

Marine Terminal

DP World Sokhna's marine container terminal is the largest in the Red Sea and third largest in Egypt. Operational 24 hours a day, 7 days a week, it's located just 23 nautical miles from the Suez Canal and within proximity to Egypt's prime industrial hubs, 6th of October City and 10th of Ramadan City.

A wide range of digital and mobile solutions boost operational efficiencies and capabilities across the marine container terminal. The 24/7 customer service call centre ensures a prompt resolution of queries can be resolved at any time – day or night.

- 750m container berth
- 17m Draft at Chart Datum. Max Tide of 1.5 Mtr.
- 42 terminal tractors
- 55-hectare container terminal yard space
- Capacity for 22,934 full TEUs and 9,555 empty TEUs

19 rubber-tired gantry cranes

Digital solutions

Our intelligent online services give instant access and real-time visibility to data that helps ensure the swift and smooth movement of cargo through DP World Sokhna.

mServices

Easily track BLs (Bill of Lading) and containers, inspection, inquiry, generate proforma storage invoices and check vessels schedules.

Vessel Schedule

Know the status, arrival and departure dates for all vessels within a week.

BL Tracking

Track a BL (Bill of Lading) with its delivery date, request for inspection date and check its inspection status.

Release and Storage

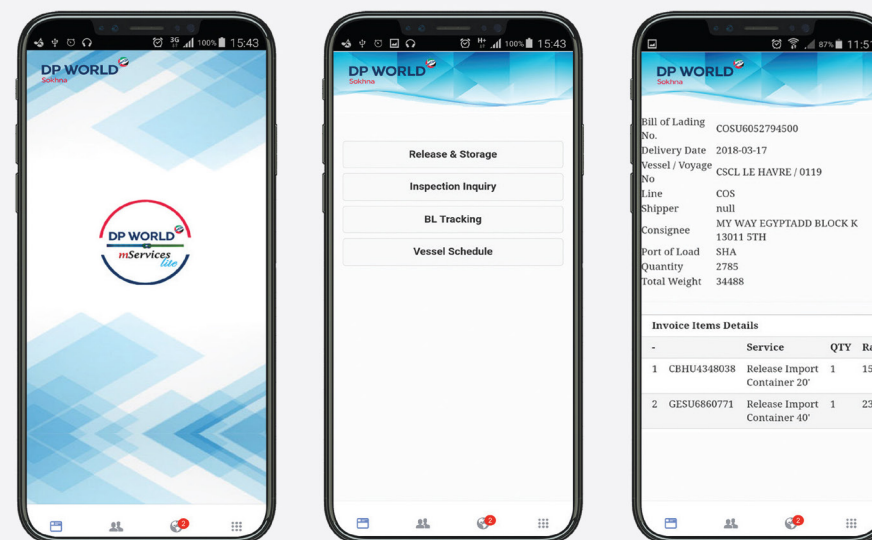

Calculate estimated invoices for storage by entering BL (Bill of Lading) number and delivery date.

Inspection Inquiry

Details about BL number such as vessel/voyage number, line and inspection details.

VAS (Vehicle Appointment System)

VAS allows truckers to register on an online portal and remotely book time slots for arrival. The system provides transparency, allowing drivers to track their vehicles through the reporting functionality, reducing unnecessary queuing and decreasing truck turnaround times.

Zodiac OPS7

Zodiac is an integrated platform to track vessel, yard, gate and rail movements. It is equipped with a complete suite of optimization modules to help automate decision-making and increase productivity.

Gate Automation

DP World Sokhna is modernizing their gates with an automated solution known as Smart Gates. OCR & RFID technologies will be used for verifying the containers data accurately without human intervention.

Logstar System

Logstar system is a terminal operating software (TOS for General Cargo & Bulk Operations). This will enable and bring better efficiency to boost terminal productivity and to provide better utilization of time and efforts.

Our commitment to the community

DP World Sokhna supports the UN Sustainability Development Goals (SDGs) and actively contributes to shaping a better future for the communities in which we operate.

"We are committed to leadership in sustainability. It is as important to us as it is to the communities in which we operate. As a global employer, we can play a significant role in improving people's lives by supporting their communities and protecting their environment."

Sultan Ahmed Bin Sulayem
Chairman and CEO

The El Sabah Hospital

The El Sabah Hospital is one of the top health service centres in the Suez Governate, due in part to its advanced equipment and neonatal care services. As part of our commitment to the health and wellbeing of the communities within which we operate, DP World Sokhna provided the hospital with 10 neo-natal care machines as well as renal failure machines.

Sewing Workshops

DP World Sokhna is committed to providing local women with equal access to education, work opportunities and participation in economic decision-making. Our team helps train women in various skills such as sewing, including using the right materials and maintenance of sewing machines. These women are also introduced to the power of social media and how to use this channel to bring their handcrafted goods to market.

Osama Bin Zayed School

DP World Sokhna has an active programme to refurbish educational facilities, including classrooms, libraries and sanitation facilities within schools. We also maintain special facilities for special-needs children at the Osama Ben Zayed School.

Al Salam Library

Al Salam Library is the largest public library in the Suez Governate. DP World Sokhna has equipped the library with more than 9,000 books of a variety of genres, including science, culture, religion, literature, academia, and novels.

Ventilators:

Donation of two ventilator devices to Suez General Hospital to support the medical sector in Suez Governorate. Due to COVID-19 pandemic, DP World Sokhna imported two Korean-made ICU Ventilators (MEK), Ventilator Model MV2000 EVO 2. This ventilator model is one of the best in the world that can be used for all specialties, adults, children, and newborns. The two devices were handed over to the Directorate of Health in Suez, and installed in Suez General Hospital.
