

DP WORLD
ECONOMIC ZONES

WHERE THE WORLD MEETS

BERBERA

WHO WE ARE AND WHAT WE DO

OUR VISION

TO LEAD THE FUTURE OF WORLD TRADE

By leveraging our portfolio of world-class infrastructure, strengthening global supply chains and generating sustainable economic growth.

OUR PURPOSE

WE MAKE TRADE FLOW TO CHANGE WHAT'S POSSIBLE FOR EVERYONE

We're on a mission to reimagine the global supply chain. And make the flow of trade smarter, faster and more sustainable.

By building better ways to bring goods to more people, we can all thrive in ways we never thought possible.

YOU'VE GOT THE VISION, WE'VE GOT THE INFRASTRUCTURE

Our Economic Zones around the world.

INNOVATION IS IN OUR DNA

OUR DIGITAL ECOSYSTEM

Our goal is to create a one-of-a-kind logistics offering, which seamlessly connects physical and digital infrastructures and ensures that we become a leading end-to-end logistics business.

Our digital solutions like DUBUY, CARGOES, World Logistics Passport (WLP), NAU, Searates, DF Alliance ease the flow of cargo across the supply chain in a paperless way.

THE FUTURE OF FREIGHT TRANSPORTATION

Powered by Hyperloop technology, DP World Cargospeed will deliver freight at the speed of flight and closer to the cost of trucking.

It will do this by connecting with existing modes of road, rail and air transport in order to expand freight transportation capacity.

THE FUTURE IS VERTICAL WITH BOXBAY

BOXBAY is a container-based storing and handling solution that is all set to revolutionise the storage system at ports. With the use of a disruptive technology – High Bay Systems. Containers can be stored 11 stories high, offering the same capacity as traditional terminals but with one third of the surface area. BOXBAY brings significant gains in handling speed, energy efficiency, safety and increases container terminal capacity by 300%.

OUR FACILITIES IN AFRICA

● ECONOMIC ZONES ● LOGISTICS ● MARINE SERVICES ● PORTS AND TERMINALS

VALUE PROPOSITION

LOCATION

- Strategic port-centric location
- Prime logistics hub

UNIQUE PRODUCT OFFERING

- Range of products across zones to meet customer needs
- Created to suit different budgets and requirements

INTEGRATED MARITIME LOGISTICS AND INDUSTRIAL PLATFORM

Growing portfolio across the supply chain allows customers to benefit from a unified service and end-to-end solutions

REDUCED COSTS

Customer-centric ecosystem to help reduce the cost of goods and services

CONDUCTIVE AND COMPETITIVE ENVIRONMENTS

Zones developed in a well established regulatory environment with fiscal/non-fiscal benefits to facilitate ease of doing business

GROWING GLOBAL NETWORK

The only zone developer with a strategic network of parks and zones across key international cargo hubs

BRAND STRENGTH

We are recognised globally as an innovative and rapidly growing provider of solutions across the supply chain

BENEFITS TO CUSTOMERS

COMPETITIVE ENVIRONMENT

- Free repatriation of profits

PRODUCTS:

- Serviced land plots
- Offices and business centre

- Pre-built warehouses
- Built to suit facilities

- PORTS AND TERMINALS
- ECONOMIC ZONES
- ROAD TO ETHIOPIA

WE ARE A RESPONSIBLE BUSINESS

PROTECTING OUR PEOPLE AND PLANET – TODAY AND TOMORROW

As a global logistics leader, we enable smarter trade to change what's possible for everyone. Our 'Our World, Our Future' sustainability strategy guides our approach. It helps us to work in a responsible way that prioritises sustainability and impact on the people, communities and environment in which we operate.

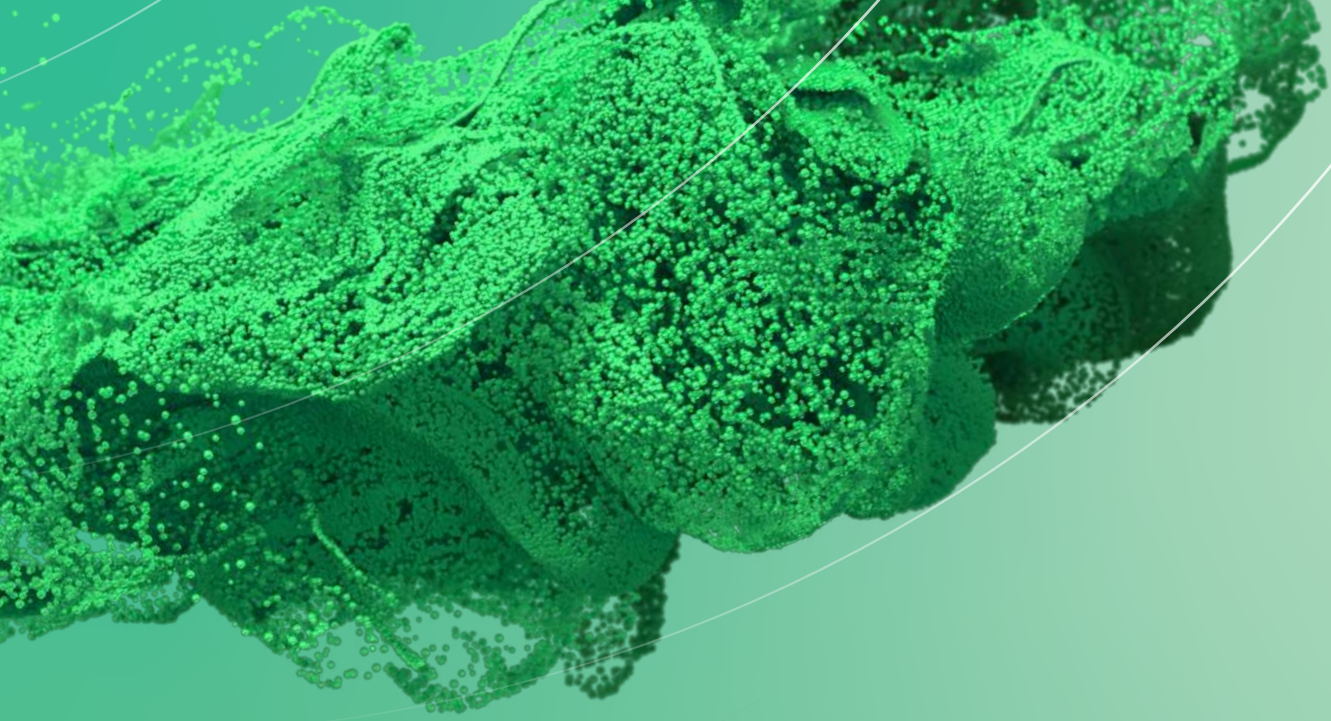

Global trade has been an enormous force for good in recent decades. But it's increasingly clear that this growth is not without consequence – from the scale of energy required to make, move and use goods to the resource intensity of logistics and the challenges economic growth can bring. As a leading supply chains solutions provider, we believe we have the tools, ingenuity and drive to lead a revolution in logistics.

We do this by using new smart technologies to make our operations more sustainable. In doing so, we cut energy and resource use, and create a fairer and more connected planet. The 'Our World, Our Future' strategy is designed to deliver responsible operations. At the same time, it prepares us for a radical shift in how business in general, and logistics in particular, respond to the great challenges of climate change, education and social inequality.

We also work with leading organisations, partners, institutions and individuals to deliver our sustainability strategy.
