MODAL SHIFT PROGRAMME TRIAL EXTENDED UNTIL END OF 2025

RAIL MORE CONTAINERS, REDUCE CARBON EMISSIONS

Our Modal Shift Programme (MSP) financially incentivises cargo-owners to utilise rail as a sustainable supply chain option for import containers within a 140-mile radius of Southampton.

The MSP Trial has now been extended until the end of 2025, so any existing customers with annual contract commitments have assurance the MSP will apply for their entire contract period. From 1 October 2024 the incentive level will be reviewed every six months.
