PROTECTING OUR PEOPLE AND PLANET - TODAY AND TOMORROW

DP World's 'Our World, Our Future' sustainability strategy helps us to work in a responsible way that prioritizes sustainability and impact on the people, communities and environment in which we operate.

We do this by using new technologies to make our operations more sustainable. In doing so, we cut energy and resource use, and create a fairer and more connected planet. The 'Our World, Our Future' strategy is designed to deliver responsible operations. At the same time, it prepares us for a radical shift in how business in general and logistics in particular, respond to the great challenges of climate change, education and social inequality.
