

FORK LIFTER

2000 TAYLOR THD 250M

TECHNICAL SPECS

Capacity:
25000lbs

Fuel:
Diesel

Engine:
Cummins b5.9

Mast type:
Two stage

Serial #: S-t2-
28987

Model:
THD250M

Year:
2000

Mast type:
Two stage

Brand: Taylor

Run hours:
11126.8

Condition:
Used

Location: DP
World
Paramaribo

**12-ton enclosed cabin pneumatic
tire 4 wheel**

Engine

Signs of low blowby and minor oil leak at front crankshaft oil seal. Radiator core will need replacing soon because of porous cooling fins.

Mast

The mast inner and outer has some wear on glide plates and bearings. The inner mast has a small deflection due to overloading lift equipment.

Fork side shift cylinders

Fork side shift cylinders have minor hydraulic oil leak. Fork rack side shift function was deleted due to heavily damaged cylinder.

Cab condition

Cab condition is fair with some minor corroded sections at the corners of the dash and bottom half front and rear. Instrument panel in working condition except for the fuel level gauge.

Cylinders

The free lift cylinder has a mayor leak. Tilt cylinders are slightly worn with minor oil leak at left cylinder. The electrical harness will need mayor repairs soon because of corroded isolation which is partial.

Hydraulic lines

Hydraulic lines show signs of wear especially at the mast. Steering components has excessive wear on bushings, shafts, kingpin and steering links.

Lights

Headlights, working lights, strobe light, back-up alarm in good condition.

Hydraulic performance

Hydraulic performance fair, some issues with fork side shifting function.
