SAFETY & ENVIRONMENT

We have a Safety and Environment Department, supported by regional and global safety teams. Our policies and guidelines are implemented to achieve the safest and most efficient methods of operation. Our policies and guidelines meet or exceed national health and safety legislation.

We have zero tolerance of conditions and behaviors that contribute to workplace incidents. To help us improve our processes and move towards our goal of zero harm, we regularly audit compliance with our policies and guidelines.

Emergency response, spill management and Dangerous Goods Policies are in place to respond effectively to hazards affecting people and environment.

SAFETOGETHER

WE ARE A RESPONSIBLE BUSINESS

PROTECTING OUR PEOPLE AND PLANET - TODAY AND TOMORROW

DP World's 'Our World, Our Future' sustainability strategy helps us to work in a responsible way that prioritizes sustainability and impact on the people, communities and environment in which we operate.

We do this by using new technologies to make our operations more sustainable. In doing so, we cut energy and resource use, and create a fairer and more connected planet. The 'Our World, Our Future' strategy is designed to deliver responsible operations. At the same time, it prepares us for a radical shift in how business in general and logistics in particular, respond to the great challenges of climate change, education and social inequality.
