

# REACH STACKER

1998 DIESEL TEREX PPM TFC45 REACHSTACKER

# EQUIPMENT SPECS

Fuel:  
Diesel

Engine:  
Diesel Cummins m11

Model:  
TFC45

Brand:  
Terex PPM

Pneumatic Tire 4 wheel

Year:  
1998

Differential and final drive condition fair. Brakes accumulator and parking brake mechanism to be replaced.

Run hours:  
2962.7

Serial #:  
VHXTFC45170618

Location:  
DP World Paramaribo

Condition:  
Used

## Engine

Condition fair, running irrationally due to one or two damaged / broken mechanical fuel injectors. Excessive wear on accelerator mechanism. Engine harness in need of replacement. Minor coolant leak on radiator.

## Transmission

Transmission, dana spicer apc100, shifts roughly when cold and when at temperature has some delay shifting gears. Transmission harness in need of replacement.

## Steering

Steering is hard when working and sometimes locks-up during operation. Steering links minor wear and tear, minor hydraulic oil leak on steering cylinder. Both steering boots damaged. Steering wheel bearing in fair condition.

## Cab condition

Operator cab and controls in fair condition. Switches and control levers present. Wire harness partially in need of replacement.

## Hydraulics system

Hydraulics system condition poor. Main pressure lower than normal. Steering hydraulic pressure low. Minor hydraulic oil leak on ls block valve and main block valve.

## Spreader glides

Spreader glide plates and the twist locks in poor condition. Pcb of spreader control box and wiring harness in poor condition. Left spreader rotor gear partially broken. Spreader damping cylinders and damping block valve in poor working condition.

## Lights
