

SECURITY POLICY

Introduction

DP World Paramaribo recognizes that security is a critical function and is committed to embedding Security in the organizational culture, ensuring that a security mindset and security activities become a part of normal working practice. DP World Paramaribo has adopted a common approach to Security and Security management system, aimed at meeting the requirements of ISO 28000.

Purpose

The primary purpose of the Security Policy is to:

- Establish the scope and objectives of the Security department.
- Introduce the critical policies that should underpin security activities within DP World Paramaribo and
- Define the high-level roles of the Business Units security.

Objectives

Focused on continual improvement of security performance, the following Security objectives have been established and agreed:

1. Yearly verification of compliance with International-, local- & DP World Standards and legislation (internal external and due diligence audit)
2. Identify and evaluate all security related risks and establish controls to communicate, respond, manage and reduce all quantified risks to an acceptable level utilizing proactive security risk assessment methods and security risk management programs.
3. Ensure 's security incident management abilities for all foreseeable scenarios, at all levels through the development of appropriate plans and strategies to enhance security, resilience and business continuity capabilities in line with DP World Paramaribo Strategy.
4. Cultivate a culture where employees have an active role in security practices through initiatives and communication programs to contribute effectively to the protection of DP World Paramaribo's Business Units interests.
5. Daily engagement on the work floor through identification and collaboration
6. Prevent security breaches through active monitoring and access control
